Explanation for Eye Specialist

The Motor Vehicle Division asks a driver license applicant to visit an eye specialist when the applicant is unable to appear in person for a renewal, unusual eye defects are apparent during tests conducted at an exam station, more accurate measurements are needed, or an improvement in vision would make driving safer. In some cases, examinations by more than one specialist are requested. Driver license examiners do not recommend or suggest health care providers to applicants.

Please complete this form for the examination you conduct. Leave blank any items not covered during the examination. Attach a separate sheet if the case is unique and additional comments are necessary. Only a report from an eye specialist is acceptable. The eye specialist assumes no responsibility in making this report other than that of precisely representing the facts. For proper identification, have the driver sign the report in your presence.
