

Barer Law Offices

Michael G. Barer

June 5, 2017

To our clients, parties to mediations or arbitrations with Michael Barer, or other persons who have submitted information to Barer Law Offices.

On Tuesday May 23, 2017, my law office was the subject of a burglary in which a computer was stolen. My IT personnel locked the computer as soon as we discovered it had been stolen. I do not know or reasonably believe that any personal information was or may have been acquired by an unauthorized person.

Both as a matter of law (MCA § 30-14-1704) and of ethics I am obligated to advise you of this computer theft. You may wish to take action to determine if any personal information has been accessed by an unauthorized person or otherwise used by an unauthorized person.

I sincerely apologize for any inconvenience or concern this development causes you. I certainly find it more than an "inconvenience", but it is the reality in this day and age that some persons seem more willing to engage in this type of activity than pursuing productive and honest endeavors.

Sincerely,

BARER LAW OFFICES

MICHAEL G. BARER, ESQ.
