Dear Name :

I am writing with important information regarding a recent theft of office equipment at Brandeis University. The theft may impact some of the personal information belonging to students who were enrolled or taking a course from the Summer of 2012 to the present, including you. The privacy and security of our students' personal information is of utmost importance to Brandeis, and as such, we wanted to provide you with information regarding the incident and let you know that we continue to take significant measures to protect your information.

On October 26, 2015, we learned that two university computers were stolen from the Registrar's office over the preceding weekend. The university's incident response team immediately launched an investigation. As part of our investigation, the university has been working very closely with third-party experts who regularly investigate and analyze these types of incidents. We are also working with local law enforcement. The stolen computers were password-protected pursuant to Brandeis University policies.

The university has devoted considerable time and resources to determine what information may have been on the stolen computers and, as such, at risk of disclosure. Our investigation has determined that your personal information may have been contained on one of the stolen devices, including your name, permanent address, phone number(s), date of birth, e-mail address(es), and student record information. In addition, your Social Security number *may* have been contained on one of the stolen devices. There was no financial or medical information on either computer.

To date, we are not aware of any reports of identity fraud, theft, or other harmful activity resulting from this incident, or that any personal information has actually been accessed or misused. Nevertheless, we wanted to make you aware of the incident, explain the services we are making available to safeguard you against identity fraud, and suggest steps that you should take as well.

Enclosed you will find information on enrolling in a 12-month membership of Experian's ProtectMyID* Alert, that we are providing at no cost to you, along with other precautionary measures you can take to protect your personal information, including placing a Fraud Alert, placing a Security Freeze and/or obtaining a free credit report. Additionally, you should always remain vigilant in reviewing your financial account statements for fraudulent or irregular activity on a regular basis.

Please accept my sincere apologies, on behalf of the University, that this incident occurred. We are committed to maintaining the privacy of our students' information and have taken many precautions to safeguard it. We continually evaluate and modify our practices to enhance the security and privacy of our students' information, which includes our ongoing project to centralize the management, backup, and encryption of all staff computers, including laptops and workstations.

If you have any further questions regarding this incident, please call our dedicated and confidential toll-free response line that we have set up to respond to questions at (877) 846-5276. This response line is staffed with professionals familiar with this incident and knowledgeable on what you can do to protect against misuse of your information. The response line is available Monday through Friday, 9:00 a.m. to 9:00 p.m. Eastern Time.

Sincerely,

Marianne Cwalina
Senior Vice President for Finance and Treasurer

3. Consider Placing a Security Freeze on Your Credit File.

If you are very concerned about becoming a victim of fraud or identity theft, you may request a "Security Freeze" be placed on your credit file. 4. Obtaining a Free Credit Report.

Call **1-877-322-8228** or request your free credit reports online at **www.annualcreditreport.com**. Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

5. Additional Helpful Resources.

Even if you do not find any suspicious activity on your initial credit reports, the Federal Trade Commission (FTC) recommends that you check your credit reports periodically. Checking your credit report periodically can help you spot problems and address them quickly.

If you find suspicious activity on your credit reports or have reason to believe your information is being misused, call your local law enforcement agency and file a police report. Be sure to obtain a copy of the police report, as many creditors will want the information it contains to absolve you of the fraudulent debts. You may also file a complaint with the FTC by contacting them on the web at www.ftc.gov/idtheft, by phone at 1-877-IDTHEFT (1-877-438-4338), or by mail at Federal Trade Commission, Consumer Response Center, 600 Pennsylvania Avenue, NW, Washington, DC 20580. Your complaint will be added to the FTC's Identity Theft Data Clearinghouse, where it will be accessible to law enforcement for their investigations. In addition, you may obtain information from the FTC about fraud alerts and security freezes.
