Dear Jane Doe,

I am writing to you to provide you with information about a recent e-mail phishing incident at Xperi Corporation and its subsidiaries, including Tessera Technologies, Inc. (collectively "Xperi"), in which some of your personal information may have been accessible. We have taken steps to address the issue and provide details below to help you further protect your information.

What Happened?

Between approximately March 11 and March 15, 2019, an unauthorized party logged into the email accounts of a small number of Xperi employees and may have been able to obtain certain information in the accounts. Promptly after learning of the matter, we took steps to secure the relevant Xperi email accounts, and engaged a third-party expert to assist in our investigation.

What Information Was Involved?

Some emails from certain of the affected accounts contained personal information such as, your name, contact information, [Social Security Number (SSN),] [government issued ID,] [passport number,] [tax-payer ID number,] [driver's license or driver's license number,] [state identification,] [financial account number,] [date of birth,] [medical health information or insurance information,] [security code, username and/or password for a corporate system such as eRequestor, Okta, or DocuSign,] [employee account information,] [digital signature,] and limited email correspondence. Based on our investigation, we have no evidence that the unauthorized party was targeting your personal information contained in the affected accounts.

What We Are Doing?

After learning of the issue, we promptly took steps to investigate and contain the issue. Xperi takes the protection of personal information very seriously and has put in place additional security measures to help further protect against phishing attempts, including resetting the relevant Xperi accounts' passwords and monitoring for similar phishing campaigns.

What You Can Do

While we have no evidence that the unauthorized party was targeting your personal information, please consider the following recommendations:

- **Order a Credit Report.** You are entitled under U.S. law to one free credit report annually from each of the three nationwide consumer reporting agencies. To order your free credit report, visit www.annualcreditreport.com or call toll-free at 1-877-322-8228. We encourage you to remain vigilant by reviewing your account statements and monitoring your free credit reports.

- Register for Identity Protection Services. We have arranged with Identity Guard® Total Protection (provided by Intersections, Inc.) to offer you identity protection and credit monitoring services for **2 years**, at no cost to you. Information about these services and how to enroll is contained in the enclosed attachment for **Identity Guard® Total Protection**. . Your referral code to use for enrollment is: **XXXX-XXXX-XXXX**. **You must enroll by August 30, 2019 to obtain the service for free.**
- Remain Alert for Phishing Attempts and Change your Account Credentials. We recommend you remain alert for suspicious emails you receive asking you to download attachments, click on links or provide your personal information. While we have no indication that your accounts were compromised as a result of this issue, as a precaution, you may want to change your password on any accounts or websites or apps for which you use the same or a similar password.
- Review the Reference Guide. The enclosed Reference Guide provides additional recommendations on the protection of personal information.

For More Information

We hope this information is useful to you. If you have any questions regarding this issue, please contact us at XperiPrivacy@xperi.com.

We regret any inconvenience this may cause you.

Sincerely,

Robert Andersen

Chief Financial Officer

Reference Guide

We encourage you to take the following steps:

Order Your Free Credit Report. To order your free credit report, visit www.annualcreditreport.com, call toll-free at 1-877-322-8228, or complete the Annual Credit Report Request Form on the U.S. Federal Trade Commission's ("FTC") website at www.consumer.ftc.gov and mail it to Annual Credit Report Request Service, P.O. Box 105281, Atlanta, GA 30348-5281. The three consumer reporting agencies provide free annual credit reports only through the website, toll-free number or request form.

When you receive your credit report, review it carefully. Look for accounts you did not open. Look in the "inquiries" section for names of creditors from whom you haven't requested credit. Some companies bill under names other than their store or commercial names. The consumer reporting agency will be able to tell you when that is the case. Look in the "personal information" section for any inaccuracies in your information (such as home address and Social Security number). If you see anything you do not understand, call the consumer reporting agency at the telephone number on the report. Errors in this information may be a warning sign of possible identity theft. You should notify the consumer reporting agencies of any inaccuracies in your report, whether due to error or fraud, as soon as possible so the information can be investigated and, if found to be in error, corrected. If there are accounts or charges you did not authorize, immediately notify the appropriate consumer reporting agency by telephone and in writing. Consumer reporting agency staff will review your report with you. If the information cannot be explained, then you will need to call the creditors involved. Information that cannot be explained also should be reported to your local police or sheriff's office because it may signal criminal activity.

Register for Identity Protection and Credit Monitoring Services. We have arranged with Identity Guard® (Intersections, Inc.) to offer **identity protection and credit monitoring services** to you for **2 years** at no cost to you. Please see the enclosed attachment, titled **Identity Guard® Total Protection**, for further information.

Report Incidents. If you detect any unauthorized transactions in a financial account, promptly notify your financial institution or card issuer. If you detect any incident of identity theft or fraud, promptly report the incident to law enforcement, the FTC and your state Attorney General. If you believe your identity has been stolen, the FTC recommends that you take these steps:

- Close the accounts that you have confirmed or believe have been tampered with or opened fraudulently. Use the FTC's ID Theft Affidavit (available at www.ftc.gov/idtheft) when you dispute new unauthorized accounts.
- File a local police report. Obtain a copy of the police report and submit it to your creditors and any others that may require proof of the identity theft crime.

You can contact the FTC to learn more about how to protect yourself from becoming a victim of identity theft and how to repair identity theft:

Consider Placing a Fraud Alert or Security Freeze on Your Credit File. To protect yourself from possible identity theft, consider placing a fraud alert or security freeze (also known as a "credit freeze") on your credit file. A fraud alert helps protect you against the possibility of an identity thief opening new credit accounts in your name. When a merchant checks the credit history of someone applying for credit, the merchant gets a notice that the applicant may be the victim of identity theft. The alert notifies the merchant to take steps to verify the identity of the applicant. A security freeze is designed to prevent potential creditors from accessing your credit file at the consumer reporting agencies without your consent. *Unlike a fraud alert, you must place a security freeze on your credit file at each consumer reporting agency individually.*
