Notice of Data Breach

Dear <<FirstName>> <<LastName>>,

Yaculta Companies, Inc. (“Yaculta”) writes to notify you of an incident that may affect the privacy of some of your personal information. While, to date, we have no evidence of actual or attempted misuse of the personal information potentially affected by this incident, this letter provides details of the incident, our response, and resources available to you to help protect your personal information from possible misuse, should you feel it is appropriate to do so.

What Happened? On November 14, 2018, we became aware of unusual activity relating to an employee’s email account. We quickly began an investigation to determine the nature and scope of the activity. Working with computer forensic investigators, we determined that certain employee email accounts were subject to unauthorized access between September 1, 2018 and November 15, 2018. We then undertook a comprehensive and extensive review of all emails and attachments that were present in the relevant accounts at the time of the incident to identify what personal information was stored within the emails and to whom that information relates. We then worked diligently to identify appropriate contact information for those individuals. This review effort was completed recently. Although we are unaware of any actual or attempted misuses of your personal information, we are providing you this notification out of an abundance of caution because your information was present in the email accounts.

What Information Was Involved? Our investigation confirmed the personal information present in the impacted email account includes your <<ClientDef1(name [and /,] [Variable Text])>><ClientDef2([Variable Text])>>.

What Are We Doing. The security of the information in our systems is among our highest priorities. We have security measures in place to protect information in our care. Upon learning of this incident, we quickly took steps to confirm the security of our email systems. We reset the passwords for all email accounts and reviewed our company policies and procedures relating to data security. In an abundance of caution, we are also notifying potentially affected individuals, including you, so that you may take further steps to best protect your personal information, should you feel it is appropriate to do so. Although we are unaware of any actual or attempted misuse of your personal information as a result of this event, we arranged to have Kroll provide identity monitoring services for 12 months at no cost to you as an added precaution.

What Can You Do. You may review the information contained in the attached “Steps You Can Take to Protect Your Information.” You may also enroll to receive the identity monitoring services we are making available to you. We will cover the cost of this service; however, you will need to enroll yourself in this service.

Monitor Accounts

We encourage you to remain vigilant against incidents of identity theft and fraud, to review your account statements, and to monitor your credit reports for suspicious activity. Under U.S. law you are entitled to one free credit report annually from each of the three major credit reporting bureaus. To order your free credit report, visit www.annualcreditreport.com or call, toll-free, 1-877-322-8228. You may also contact the three major credit bureaus directly to request a free copy of your credit report.

You have the right to place a “security freeze” on your credit report, which will prohibit a consumer reporting agency from releasing information in your credit report without your express authorization. The security freeze is designed to prevent credit, loans, and services from being approved in your name without your consent. However, you should be aware that using a security freeze to take control over who gets access to the personal and financial information in your credit report may delay, interfere with, or prohibit the timely approval of any subsequent request or application you make regarding a new loan, credit, mortgage, or any other account involving the extension of credit. Pursuant to federal law, you cannot be charged to place or lift a security freeze on your credit report. Should you wish to place a security freeze, please contact the major consumer reporting agencies listed below:

Experian	TransUnion	Equifax
PO Box 9554	P.O. Box 2000	PO Box 105788
Allen, TX 75013	Chester, PA 19016	Atlanta, GA 30348-5788

www.experian.com/freeze/center.html	www.transunion.com/credit-freeze	www.equifax.com/personal/credit-report-services

In order to request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security number;
3. Date of birth;
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five years;
5. Proof of current address, such as a current utility bill or telephone bill;
6. A legible photocopy of a government-issued identification card (state driver’s license or ID card, military identification, etc.);
7. If you are a victim of identity theft, include a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

As an alternative to a security freeze, you have the right to place an initial or extended “fraud alert” on your file at no cost. An initial fraud alert is a 1-year alert that is placed on a consumer’s credit file. Upon seeing a fraud alert display on a consumer’s credit file, a business is required to take steps to verify the consumer’s identity before extending new credit. If you are a victim of identity theft, you are entitled to an extended fraud alert, which is a fraud alert lasting seven years. Should you wish to place a fraud alert, please contact any one of the agencies listed below:
