Dear <<first_name>> <<middle_name>> <<last_name>> <<suffix>>,

Northeastern Star Asset Management (“Northeastern”) takes data security very seriously, and we understand the importance of protecting the information we maintain. We are writing to inform you about an incident that may have involved some of your information. This notice explains the incident, measures we have taken, and some steps you can take in response.

On August 9, 2019, we concluded our investigation and analysis of a security incident. We began our investigation after suspecting that unauthorized emails may have been sent from an employee’s email account on May 1, 2019. We secured the employee’s email account and a leading cyber security firm was engaged to assist with the investigation. We could not rule out the possibility that unauthorized parties could have potentially accessed emails and attachments in the employee’s email account between the dates of April 29, 2019 and May 1, 2019. As part of our investigation, we undertook a comprehensive review of the employee’s email account and determined that it may have contained some of your information, including your <<b2b_text_3>>.

Although, to date, we have no evidence that any of your information was actually viewed or misused as a result of the incident, out of an abundance of caution, we wanted to let you know this happened and assure you we take it very seriously. We encourage you to remain vigilant by reviewing your financial account statements for any unauthorized activity. If you see charges or activity you did not authorize, please contact your financial institution immediately. As a precaution, we have secured the services of Experian® to offer you a complimentary one-year membership of Experian’s IdentityWorksSM. This product helps detect possible misuse of your information and provides you with identity protection support focused on immediate identification and resolution of identity theft. IdentityWorks is completely free and enrolling in this program will not hurt your credit score. **For more information on IdentityWorks, including instructions on how to activate your complimentary one-year membership, as well as some additional steps you can take to protect yourself, please see the pages that follow this letter.**

We regret any inconvenience or concern this may cause you. We have taken steps to help prevent a similar incident from occurring in the future, including the implementation of multi-factor authentication for email, as well as additional procedures to further expand and strengthen our security processes.

If you have any questions, please call our incident response line at 1-833-496-0192, Monday through Friday, 9:00 a.m. to 6:30 p.m., Eastern Time.

Sincerely,

Kenneth R. Ferrone
Vice President and Chief Compliance Officer

If you are a resident of West Virginia, you have the right to ask that nationwide consumer reporting agencies place "fraud alerts" in your file to let potential creditors and others know that you may be a victim of identity theft, as described below. You also have a right to place a security freeze on your credit report, as described below.

Fraud Alerts: There are two types of fraud alerts you can place on your credit report to put your creditors on notice that you may be a victim of fraud—an initial alert and an extended alert. You may ask that an initial fraud alert be placed on your credit report if you suspect you have been, or are about to be, a victim of identity theft. An initial fraud alert stays on your credit report for one (1) year. You may have an extended alert placed on your credit report if you have already been a victim of identity theft with the appropriate documentary proof. An extended fraud alert stays on your credit report for seven years. You can place a fraud alert on your credit report by contacting any of the three national credit reporting agencies.

Credit Freezes: You have the right to put a credit freeze, also known as a security freeze, on your credit file, free of charge, so that no new credit can be opened in your name without the use of a PIN that is issued to you when you initiate a freeze. A security freeze is designed to prevent potential credit grantors from accessing your credit report without your consent. If you place a security freeze, potential creditors and other third parties will not be able to get access to your credit report unless you temporarily lift the freeze. Therefore, using a security freeze may delay your ability to obtain credit.

There is no fee to place or lift a security freeze. Unlike a fraud alert, you must separately place a security freeze on your credit file at each credit reporting company. For information and instructions to place a security freeze, contact each of the credit reporting agencies at the addresses below:

- **Experian Security Freeze**, PO Box 9554, Allen, TX 75013, www.experian.com
- **TransUnion Security Freeze**, PO Box 2000, Chester, PA 19016, www.transunion.com
- **Equifax Security Freeze**, PO Box 105788, Atlanta, GA 30348, www.equifax.com

To request a security freeze, you will need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.)
2. Social Security number
3. Date of birth
4. If you have moved in the past five years, provide the addresses where you have lived over the prior five years
5. Proof of current address such as a current utility bill or telephone bill
6. A legible photocopy of a government issued identification card (state driver's license or ID card, military identification, etc.)
7. If you are a victim of identity theft, include a copy of the police report, investigative report, or complaint to a law enforcement agency concerning identity theft

The credit reporting agencies have one business day after receiving your request by toll-free telephone or secure electronic means, or three business days after receiving your request by mail, to place a security freeze on your credit report. The credit bureaus must also send written confirmation to you within five business days and provide you with a unique personal identification number ("PIN") or password or both that can be used by you to authorize the removal or lifting of the security freeze.

To lift the security freeze in order to allow a specific entity or individual access to your credit report, or to lift a security freeze for a specified period of time, you must submit a request through a toll-free telephone number, a secure electronic means maintained by a credit reporting agency, or by sending a written request via regular, certified, or overnight mail to the credit reporting agencies and include proper identification (name, address, and Social Security number) and the PIN or password provided to you when you placed the security freeze as well as the identity of those entities or individuals you would like to receive your credit report or the specific period of time you want the credit report available. The credit reporting agencies have one hour after receiving your request by toll-free telephone or secure electronic means, or three business days after receiving your request by mail, to lift the security freeze for those identified entities or for the specified period of time.

To remove the security freeze, you must submit a request through a toll-free telephone number, a secure electronic means maintained by a credit reporting agency, or by sending a written request via regular, certified, or overnight mail to each of the three credit bureaus and include proper identification (name, address, and Social Security number) and the PIN number or password provided to you when you placed the security freeze. The credit bureaus have one hour after receiving your request by toll-free telephone or secure electronic means, or three business days after receiving your request by mail, to remove the security freeze.
