Dear <insert Name(s)>;

Between October 12 and October 20, 2015, we concluded that your TurboTax account may have been accessed previously by someone other than you. Since we have no evidence that any Intuit system has been compromised, we believe your username and password combination was obtained from other third party sources. If you didn't access your account during this time, someone else may have obtained information contained on a prior year tax return.

This letter details steps we're taking to help protect you and suggestions on how to protect yourself in the future.

How we're protecting your TurboTax information

We've locked your TurboTax account to protect your information from further unauthorized access. To help ensure you're protected in the future, we're offering you free credit monitoring through ProtectMyID service, provided by our credit-monitoring partner Experian. The information included with this letter provides details about how to use this service. Feel free to email us at TTaxInvestigations@intuit.com with questions about how to obtain credit-monitoring services for any dependents that appear on your return.

Your next steps

1. To unlock your account, please email us at TTaxInvestigations@intuit.com or call Customer Care at 1-800-944-8596. We'll walk you through the process of verifying your identity so you may access your account again.
2. Once you access your account, review your personal information in MyTurboTax to make sure that it's accurate. Pay particular attention to your email address and bank account information.
3. To prevent unauthorized access to your other non-Intuit online accounts, you should immediately change your passwords for those accounts, particularly if you use the same username and password.
4. Make sure that your computer is properly secured (e.g., that you are using current anti-virus software, firewall, security patches) and you routinely check for viruses and malware. More information on how to do this can be found at <https://security.intuit.com/protect-your-computer.html>.

If you have any additional questions or concerns, call our security hotline at 1-800-944-8596.

Sincerely,

Barbara Lawler, Chief Privacy Officer, Intuit

Additional Actions to Help Reduce Your Chances of Identity Theft

➤ PLACE A 90-DAY FRAUD ALERT ON YOUR CREDIT FILE

An initial 90-day security alert indicates to anyone requesting your credit file that you suspect you are a victim of fraud. When you or someone else attempts to open a credit account in your name, increase the credit limit on an existing account, or obtain a new card on an existing account, the lender should take steps to verify that you have authorized the request. If the creditor cannot verify this, the request should not be satisfied. You may contact one of the credit reporting companies below for assistance.

Equifax
1-800-525-6285
www.equifax.com

Experian
1-888-397-3742
www.experian.com

TransUnion
1-800-680-7289
www.transunion.com

➤ PLACE A SECURITY FREEZE ON YOUR CREDIT FILE

If you are concerned about becoming a victim of fraud or identity theft, a security freeze might be right for you. Placing a freeze on your credit report will prevent lenders and others from accessing your credit report entirely, which will prevent them from extending credit. With a security freeze in place, you will be required to take special steps when applying for any type of credit. This process is also completed through each of the credit reporting companies.

➤ ORDER YOUR FREE ANNUAL CREDIT REPORTS

Visit www.annualcreditreport.com or call 877-322-8228.

Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

➤ MANAGE YOUR PERSONAL INFORMATION

Take steps such as: carrying only essential documents with you; being aware of whom you are sharing your personal information with and shredding receipts, statements, and other sensitive information.

➤ USE TOOLS FROM CREDIT PROVIDERS

Carefully review your credit reports and bank, credit card and other account statements. Be proactive and create alerts on credit cards and bank accounts to notify you of activity. If you discover unauthorized or suspicious activity on your credit report or by any other means, file an identity theft report with your local police and contact a credit reporting company.
