RE: NOTICE OF A DATA BREACH

Dear [Redacted]

The protection and privacy of your personal information is one of our highest priorities. Because of this, we are writing to make you aware of a recent data security incident that may have involved some of your information. **While we have no reason to believe that your personal information has been misused for the purpose of committing fraud or identity theft**, we are writing to advise you about the incident and to provide you with guidance on what you can do to protect yourself, should you feel it is appropriate to do so.

What Happened? We recently learned that an employee email account was temporarily accessed without authorization. Upon detection, we promptly contained the incident by securing the account to prevent further access. We also engaged a leading forensic firm to determine the scope of the incident and confirm the security of our systems. This investigation determined that the third party accessed the email account at various times between December 20, 2021 and April 22, 2022.

What Information Was Involved? We believe that the third party was using the account access to try and commit wire fraud against the company by attempting to redirect vendor payments to new bank coordinates. These attempts failed. We do not know if any personal information was ever actually viewed or acquired. Nevertheless, we analyzed the contents of the account for any personal information, and on May 24, 2022, we determined that the email account could have contained some of your personal information, including your name, address, and Social Security or tax identification number.

What We Are Doing. We have identified and taken steps to correct the technical issue described above. We are also offering a complimentary two-year membership of Experian IdentityWorksSM Credit 3B. This product helps detect possible misuse of your personal information and provides you with identity protection services focused on immediate identification and resolution of identity theft. Massachusetts residents, under Massachusetts law, you have the right to obtain any police report filed in regard to this incident. If you are the victim of identity theft, you also have the right to file a police report and obtain a copy of it. Massachusetts law also allows consumers to place a security freeze on their credit reports. A security freeze can be placed without any charge. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization. However, please be aware that placing a security freeze on your credit report may delay, interfere with, or prevent the timely approval of any requests you make for new loans, credit mortgages, employment, housing or other services.

To place a security freeze on your credit report, you must send a written request to each of the three major consumer reporting agencies by regular, certified or overnight mail at the addresses below or, if available, comply with the consumer reporting agencies' online security freeze request procedures:

Equifax Security Freeze

www.equifax.com
P.O. Box 105788
Atlanta, GA 30348

Trans Union Security Freeze
1-888-909-8872
www.transunion.com
P.O. Box 160
Woodlyn, PA 19094

In order to request a security freeze, you may need to provide the following information:

1. Your full name (including middle initial as well as Jr., Sr., II, III, etc.);
2. Social Security Number;
3. Date of birth;
4. If you have moved in the past five (5) years, provide the addresses where you have lived over the prior five years;
5. Proof of current address such as a current utility bill or telephone bill;
6. A legible photocopy of a government issued identification card (state driver's license or ID card, military identification, etc.); and
7. If you are a victim of identity theft, include a copy of either the police report, investigative report, or complaint to a law enforcement agency concerning identity theft.

The credit reporting agencies have three (3) business days after receiving your request to place a security freeze on your credit report. The credit bureaus must also send written confirmation to you within five (5) business days and provide you with a unique personal identification number (PIN) or password, or both that can be used by you to authorize the removal or lifting of the security freeze.

To lift the security freeze in order to allow a specific entity or individual access to your credit report, you must call or send a written request to the credit reporting agencies by mail or, if available, comply with the consumer reporting agencies' online procedures for lifting a security freeze, and include proper identification (name, address, and social security number) and the PIN number or password provided to you when you placed the security freeze as well as the identities of those entities or individuals you would like to receive your credit report or the specific period of time you want the credit report available. The credit reporting agencies have three (3) business days after receiving your request to lift the security freeze for those identified entities or for the specified period of time.

To remove the security freeze, you must send a written request to each of the three credit bureaus by mail or, if available, comply with the consumer reporting agencies' online procedures for removing a security freeze, and include proper identification (name, address, and social security number) and the PIN number or password provided to you when you placed the security freeze.
